WASHINGTON, May 29. Harper's Ferry, if not already evacuated, will soon fall. Troops there are not near so numerous as has been stated; there are not over 4,000 in or about the place, and they are miserably equippied and nearly starved. Gen. McClellan, with 15,000 troops, is already on the march towards Harper's Ferry. Another force will proceed from Chamberburg, under Gen. Kiem; another from the Relay House, and still another from Washington, to cut off the rebels.

Eighty thousand troops will rendezvous at Cairo, for an immediate move on Memphis. The Government is now putting forth its power, and will urge the campaign to the lowest point of latitude consistent with climate, and the epidemics of August and September, without, perhaps, any formal proclamation for an additional enlistment of the forces needed.

The New York Times' Washington correspondent speculates as follows: Government is becoming embarrassed with the question of how prisoners appeared in conflict should be disposed of. Scouts are daily picking up men proved to be disunionists. Already those taken exceed one hundred. The rebels are capturing Union men, thinking when they have a sufficient number, they will be able to secure the release of the thirty-six rebels captured at Alexandria. If the Government bags Kona sold at 1Sc; balance withdrawn. exchanges be adopted, there is in the act a recognition offerings without bidders. of the rebels as belligerents, according to the law of nations. The Cabinet have discussed this point several times, without coming to any conclusion.

The Herald's Baltimore dispatch says there are 20,000 troops at Harper's Ferry, and plenty of heavy artillery at every accessible point.

Gen. Butler was reinforced yesterday by 2,000 men. The Times' Washington dispatch states that there are 8,000 troops at Point of Rocks. The troops there are much demoralized, but will make a desperate fight. The Memphis Bulletin announces the arrival of Gen.

The Post's dispatch says the Government forces had a conflict with the rebels at Aquia Creek. The steamers Freeborn, Anocusta, Resalletto, and a schooner opened fire, finally silencing the wharf battery, killing several rebels. None of our troops were injured. The Paunoc and Fankee were sent there this morning.

The Commercial's dispatch says that it is believed that the engagement at Aguia Creek has been severe. If the batteries have not been destroyed a large force will go immediately and take the place.

A scout returned after two days' stay at Harper's Ferry, and reports that quantities of provisions have been taken there from the Maryland side.

Army officers believe that unless the Harper's Ferry forces retreat, they will be surrounded within a week. MARINE JOURNAL. The number of troops on the heights overlooking Harper's Ferry are less than 1,000 having a battery of forty guns. The troops there speak depressingly of the state of affairs, but they will fight hard.

Europe.

The British Government has issued a proclamation, warning its subjects against engaging in the war in America, and declaring the intenti n of the Govern-mant to remain neutral. It warns British subjects that if they enter the miltary service of either side, or join ships of war, or transports, or break, or endeavor to break, any blockade, lawfully or actually established, or carry soldiers, dispatches, materials contraband of war for either party, they will be liable to all the penalties and consequences, and do so at their peril, and will in no wise obtain the protection of the Government. > We learn that orders have gone forward by the Comet for machinery for one large sugar mill, and that several of the planters are contemplating sending for machinery to increase the capacity of that now in use.

The only feature of interest in the trade during the past week has been the continuation of auction sales of the stock of J. T Waterhouse's stores. The prices realized for goods of all kinds are better than was anticipated, and some articles, particularly popular styles of prints, brought what may be called high prices The ship Speedwell, Capt. Green, arrived on the 27th, 14 days from San Prancisco. She brings but a small amount of freight and no passengers. We learn that she will probably be kept on the route between th is port and San Francisco. By the Speedwell we are in receipt of San Francisco dates to

Foreign and domestic raws have attracted more attention than almost any other article in the market, during the past ten days, and transactions have assumed large proportions at improved prices. Of No I China we note sales of 8 750 bales in lots opening at 846 and closing at 846 846, though perhaps the inside figure is the extreme at which sales could readily be effect ed as we write. Of Sandwich I-lands some 1700 pkg- to hand per Yankee were offered at auction, on 30 days, with the follow-

The prices obtained were hardly up to expectations in view of the late activity and upward tendency of China, and we think that at the close the market for foreign raws is scarcely so huoyant as when buyers were eager to invest. Operations in domestic raws have nearly cleared first hands of stocks; parcels so held are within 175 blds, and there is nothing on the way from Atlantic ports; a cargo was noted as loading in a Cuban port, May 34, for this market, sales embrace 24 hhds fair to choice Muscovado and Porto Rico 9\(\sigma 10\)\(\sigma \), and 62 do good New Orleans, 10c, the regular trade being the buyers. Business continues quite inactive, and almost every one is complaining of dull times. The transactions of the week have been light. All departments of trade continue to feel the influence of the present unsettled state of affairs, and buyers hesitate before operating to any extent in any kind of merchandise.

Foreign Oil Market.

We hear of no transactions in sperm oil the present week, but there is a little inquiry, and holders are firm.

For whale oil the demand is light for this season of the year.

Munufacturers refuse to fill orders from the Southern and South-Western States. The sales in this market for the week have been 400 bbls handsome, in two parcels, at 41 cents per gal; 500 do, selected, in parcels, at 40 cents; 600 do, brown and dark, at from 38 to 39 cents; and 350 do. dark, in parcels, upon private terms. All for manufacturing.

In whalebone the only sale here is 28,000 lbs., handsome Arc-

tic, at 70 cents per ib. In New York, 1500 lbs Ochotsk, at 74 cents per ib., and 5,000 lbs Arctic, upon private terms. In the London market, April 20th, no sales were reported of ither oil or bone. Prices unchanged.—N. B. Republican Standard, May 9.

MEMORANDA.

The Speedwell, Capt Green, sailed from San Francisco June 18: had very moderate winds and fine weather on the passage; was telegraphed here at 6 P M on the 27th, and came into port on the morning of the 28th-14 days run.

Capt Wetherbee, in the little schooner Molkeiki, succeeded admirably yesterday morning in getting up from the anchorage outside the reef an anchor and 15 fathoms chains, weighing together about 2 tons, and which was slipped from the Lotus, Capt Leckie, some seven months since. One must be outside and feel the pitching and rolling of a little vessel like the Keiki in the ground swell there, to appreciate the undertaking, which, as we are informed, was got through with in less than four hours, and that without heeling the schooner much or causing any great strain on her masts
